THE Earl of Aldborough cured of a Liver and Stomach Complaint. Extract of a Letter from the Earl of Aldborough, dated Villa Messina, Leghorn, 21st February,

Sir.—Various circumstances prevented the possibility of my thanking you sefore this time for your politeness in sending me your Pills as you did. I new take this opportunity of sending you an order for the amount, and at the same time to add that your Fills have effected a cure of a disorder in my Liver and Stomach, which all the most eminent of the Faculty at home, and all over the Continent, had not been able to effect; nay, not even the waters of Carlsbad and Martenbad. I wish to have another box and a pot of the ointment, in case any of my family should ever requireleither.—Your most obliged and obedient servant, To Professor Holloway.

A WONDERFUL CURE OF DROFSY OF FIVE
YEARS' STANDING.
Copy of a Letter from Mr. Thomas Taylor,
Chemiat, Stockton, Durham, April 17, 1845.
To Professor Holloway.
Sir,—I think it my duty to inform you that Mrs. Clough, wife of Mr. John Clough, a respectable farmer, of Acklam within four niles of this place, had been suffering from Dropsy for five years, and had had the best medical advice without receiving any relief. Hearing of your Pills and Ointment, she used them with such surprising benefit that, in fact, she has now given them up, being so wall, and quite able to attend to her household duties as formerly, which she never expected to do again. I had almost forgotten to state that she was given up by the Faculty as inctarable. When she used to get up in the morning it was impossible to discover a feature in her face, being in such a featful state. This cure is entirely by the use of your Medicines—I am, Sir, &c., &c., (Signed)

To Professor Holloway.

Sir,—I consider it my duty to inform you that your Pills, a few boxes of which I purchased at Mr. Moore's, Druggist, of Newtown, have cured me of constant Indigestion and Constipation of the Bowels, which application to literary pursuits had long entailed upon me. I should strongly recommend authors, and studiously-disposed persons generally, to use your valuable Pills. You have my permission to publish this mote, if you wish to do so.—I am, Sir, your most obedient servant, (Sieped) G. R. Wyyngs Baxes.

Sir,—The Pills which I requested you to send me were for a pear mun of the name of Hugh Davis, who, before he took them, was almost unable to scalk for scant of breath? and had only taken them a few days when he appeared quite another man; his breath is now easy and natural, and he is increasing daily in strength.

No. 1.
OTHER subjects of more pressing importance have detained us from an earlier ex-amination of the Census Tables. In now addressing ourselves to the task, we feel that our first duty is to offer to the Colo-NIAL SECRETARY our humble meed of admiration and gratitude, for the able arranged.

In no branch of Mr. Thonson's labours is this improvement "more conspicuous than in those statistical compilations which dedevelope the progress of the agricultural, commercial, and social interests of the colony. We have had occasion to point this out from year to year, when analyzing the Book of Statistica annually laid by him on the table of the Legislative Council.

But the crowning display of the honorable gentleman's abilities as a statist, and which will secure for him the grateful esteem of posterity, is undoubtedly to be found in the publications now before us. In reviewing the abstracts of the Census regulated zeal, whichhave characterised

In reviewing the abstracts of the Census taken in 1841, we had the pleasing task of showing their immeasurable superiority over all previous compilations, in these colonies, of the same class; and in the present instance we have to testify, that in point of fulness, variety, and lucid arrangement, the abstracts of 1846 rise far superior even to those of 1841.

The results of the former census were comprised in five abstracts; those of the present occupy no less than fifty six. The returns of 1841 specified six chief heads of information; those of this year specify eight. In the latter, the information is classified thus. Dearm by Drowing—On Monday night, while George Seymour, ship-keeper of the steamer James Watt, lying off Pyrmont, on the west side of Darling Harbour, was at his post on board that vessel, he was joined by his wife, who was very much intoxicated, so much so that about eleven o'clock she either fell from or leaped off the gangway into the water. Her husband, on the impulse of the moment, (although no swimmer), leaped overboard after her to save her, and sank almost immediately; an slarm was given, and the woman was got out alive; but although every exertion was made to recover the body of the husband, it was not got hold of till yesterday, when it was fished up from under the James Watte bows. After the woman was got out she was so infuriated with the liquor she had swallowed, that it became necessary to lodge her in the lock-up at Pyrmont for protection.

We have had an abundant fall of rain during the past week, which will be of incalculable benefit to the farmers of this district, as most of the srops this season are what is termed late crops. We are happy to have it in our power to announce that there is every prospect of the Episcopalian Church being soon erected in this town. The Committee have called for tenders, and plans and specifications have been prepared, and are now lying in the hands of the treasurer, 8. North, Esq.
